## Group Teamwork Agreement for Group # 50

*We, the members of Group # 50, agree to the following ground rules, collaboration standards and policies for our STA302 final project over the Fall 2026 term:*

- ***Communication & Collaboration Platforms:*** *We will use Microsoft 365, Discord for virtual meetings, GitHub for code collaboration and Discord/iMessages for daily communication and urgent updates.*
- ***Meeting and Logistics:*** *We will meet on Tuesdays weekly at 4pm. Meetings will start at the hour (clock time rather than U of T time) and attendance is mandatory. If meetings are not held each week members will provide asynchronous progress updates via our shared chat channel. If a member cannot attend a meeting that member must notify the group at least 1 day in advance so notes can be shared and tasks reassigned.*
- ***Division of Labor & Task Execution****: Tasks will be divided equitably based on strengths with rotation or shared ownership across data cleaning, model fitting diagnostic checks and report/presentation drafting. All members are expected to be active contributors who review each other's work to ensure high statistical validity and reproducible R code.*
- ***Task Failure & Remediation Protocol****: If a member realizes that the member cannot complete an assigned task by the agreed-upon deadline, that member must notify the group immediately. To make amends that members will take on responsibilities or help with subsequent tasks to ensure everyone contributes a fair and equal amount to the project.*
- ***Group Issues & Course Policy****: If a persistent issue arises—such as a member consistently failing to communicate, participate or complete work to standard—we will first address it directly within the team. If unresolved we will proactively contact the STA302 teaching team at least 5 business days before the relevant project submission deadline as outlined in course policy.*
- ***Academic Integrity****: We commit to abiding by the University of Toronto's Code of Behavior on Academic Matters, Code of Student Conduct and maintaining zero tolerance, for harassment.*

## Declaration of Agreement

We, the members of group 50, will participate effectively in this group as we prepare our final project, over the course of the Fall 2026 term. This will include:

- *Acting in accordance with our group agreement, as outlined above.*
- *Attending group meetings on time.* If I must miss a group meeting, I will inform my group members ahead of time.
- *Coming prepared to share with my group.* If I am unable to prepare and/or complete agreed to work by the meeting, I will let my group know as soon as possible and take on additional work as needed to make sure everyone contributes a fair and equal amount to this project.
- *Being an active listener and participant.* I will ask for clarification if I do not understand something, and I will encourage all group members to speak up and share their views.

- *Giving constructive feedback, but not being unhelpfully negative.* I will comment on strengths and areas for improvement, when relevant.
- *Being respectful and professional at all times.*
- *Alerting the STA302 teaching team to any issues with our group so they can support their resolution.*

By completing the information below, each member agrees to abide by the group agreement and to contribute equally to the completion of the final project.

| Name (as it appears on Quercus) | UofT email address | Date signed |
|---|---|---|
| Alexandros Phardis | alexandros.phardis@mail.utoronto.ca | 10/27/2026 |
| Johnathon Russell | johnathon.russell@mail.utoronto.ca | 10/27/2026 |
| Nikolas Rangoussis | nikolas.rangoussis@mail.utoronto.ca | 10/27/2026 |
